

# Angle Broom

**★ Great for windrowing and displacement of materials**

**★ Thirty degree angle left and right**

**★ Long bristles extend brush life**

Clean up anything from driveways, sidewalks, parking lots, warehouses, race tracks and jobsites. Materials like dirt, sand, light snow, leaves, wood chips and other light debris sweep up quickly and effortlessly with the EDGE Angle Broom.

The angle broom features a single- or dual-motor direct drive brush, with 32" (812 mm) brush diameter for extended brush life. Brush types available are: poly, wire, or a poly and wire combination. The 120 degree brush hood reduces flying debris and dust. This broom sweeps in a forward motion, and manually angles 30 degrees right and left; a hydraulic angle kit is optional.

Includes skid steer mount, hoses and flat-faced couplers.
