

# Spreader

- ★ **Multi-functional attachment for salt, sand, fertilizer**
- ★ **Low-profile design for excellent operator visibility**
- ★ **Minimal moving parts for reduced maintenance**

The variable-speed, electrically-operated spreader is designed for many functions. Ideal in the winter for parking lot, sidewalk and road maintenance to spread salt and sand; this spreader can also be used in the spring and summer for seed and fertilizer.

Features of this versatile attachment include variable speed control, low profile design, and spreading width up to 40' (12 m). The heavy-duty, 12-volt DC motor is mounted in a weather-tight enclosure. This unit will handle up to 5.75 ft<sup>3</sup> (0.16 m<sup>3</sup>) or 350 lbs. (159 kg) of material. A gate assembly is available to control the flow of light materials.
